## THE "HOME SEEKER."

The Immigration Association of Northern California is now preparing to issue the September number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on of immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the State will be carried on. At Ogden a copy will be put in the hands of each incoming passenger. In addition to this, several thousand copies will be distributed on the trains leaving Chicago, in order to attract the settler intending to settle in other States and Territories. Give the "HOME SEEKER" your support. ap7-tf

## PACIFIC SLOPE.

### FRIGHTFUL TRAGEDY IN SAN BENITO COUNTY.

Three Chinamen Cremated—Masonic Grand Lodge—The Races at Reno.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

CALIFORNIA.

**Agreement Between Railroad Companies.**

SAN FRANCISCO, October 14th.—The Atchison, Topeka and Santa Fe Railroad and the Southern Pacific Company have entered into an agreement, by which they are to share the California business coming from the East and the Southern California business going to the East. The proportion to each is not known. Speaking of the agreement, a Southern Pacific official to-night said: "They (the Atchison, Topeka and Santa Fe) came on here, and we concluded to share the business with them. The Oregon Railway and Navigation Company is not included in this arrangement. One result of this state of affairs is that the Atchison, Topeka and Santa Fe will give up the idea of an independent steamer line from San Diego to San Francisco, and there will be no further rivalry between them and the Southern Pacific Company."

**Grand Lodge of California, F. and A. M.**

SAN FRANCISCO, October 14th.—The Grand Lodge of Free and Accepted Masons of the State of California continued in session to-day. In addition to reports yesterday received, routine business was transacted. Committees were named. It was decided last evening that the funeral services of the late Moses Heller should be conducted by the Grand Lodge. The Grand Master was authorized to name a committee in behalf of the Grand Lodge. The Grand Lodge will attend in a body. The session this forenoon was attended by a large body of delegates from subordinate lodges all over the State, and numbered between 500 and 600. The entire forenoon was consumed in receiving the reports of various standing committees. A recess was taken at 1 o'clock. The business session was resumed this afternoon. Officers will be elected next Friday.

**Weather Indications.**

SAN FRANCISCO, October 14th—8 P. M.—Signal Service indications for the succeeding thirty-two hours: North Pacific, fair weather, except in the extreme northern portion, where there will be light local rains, with variable winds. Middle Pacific, fair weather, with variable winds, generally northwesterly. South Pacific, fair weather, with light winds, generally northwesterly.

**Double Tragedy in San Benito County.**

HOLLISTER, October 14th.—At half past 9 o'clock this morning Charles A. Fowles, a wealthy farmer and prominent citizen of Paicines, twenty miles south of here, shot and killed his wife, and immediately committed suicide. The tragedy occurred at the San Benito Hotel in this place. Fowles was 52 years of age, and his wife about 45. They had been married twenty-six years, and had three children—a boy aged 24, a daughter aged 22 and a younger son. For some time past their marital relations had been unhappy, culminating in a serious difficulty about three months ago, when Fowles went East, refusing to take his wife with him. Three weeks ago she left him, and he advertised her as having stolen $750 and deserted her home. She applied to attorney B. B. McCroskey to commence a divorce suit, but on his advice concluded to effect a settlement outside of the Courts. This morning Fowles consulted McCroskey, apparently accepting his advice, and stated that if his wife would return all would be well. He went to her room, on the second floor of the San Benito Hotel, and asked her to return home with him. She said the way things were going she could not live with him. He offered to sell the property and give her one-third as her share. She would not accept the offer, saying she would "see a lawyer first." Instantly, says the only witness, Mrs. G. O. O'Donnell, he drew his revolver. She attempted to dart past him through the door. He fired three times, the first bullet grazing her neck; the second, fired as she ran down stairs, screaming, "Save me, I am shot," entered a few inches to the right of her left shoulder blade, lodging just beneath the skin below the right nipple. The third lodged in the wall. She ran down stairs, and about fifty yards from where she was shot fell and almost instantly expired. He followed her to the foot of the stairs, where he placed the pistol to the back of his right ear and fired, causing immediate death. Fowles was recognized as a man of sudden, violent and ungovernable temper. In 1873 he killed Andrew J. Rader near here, in a dispute over land. The killing was considered entirely unjustifiable. While in jail awaiting trial, Fowles attempted suicide by ripping open his abdomen with a case knife. Afterwards he tore open the wounds with a spoon handle. He was finally acquitted, although it was freely charged that the jury had been packed.

**Admitted to Bail.**

HOLLISTER, October 14th.—In the habeas corpus case of Andrew Irwin, held to answer for the murder of Dr. Powers, Judge Breen filed his written decision to-day admitting Irwin to $10,000 bail. The bond has not yet been filed.

**Sudden Death of a Famous Humorist.**

MONTEREY, October 14th.—Dr. Heintz was called to the Hotel del Monte at about 9:45 to-day, to see Henry W. Shaw ("Josh Billings"), who was there sitting in a chair by the fire in the grand hall or vestibule, apparently in good health, nothing beyond a severe pain in the chest troubling him. He said: "My doctors in the East ordered rest of the brain, but" (throwing back his long hair) "you can see that I do not have to work my brain for a simple lecture. It comes spontaneously; but I am sometimes dizzy, and have every and all kinds of noises in my head." While talking, he threw his hands over his head and fell backwards. He was carried to his room, and in fifteen minutes was dead. The body is being embalmed, to be sent East. His wife is here. The face shows no pain, and seems perfectly natural. He was to have lectured here Friday, for the benefit of the local Lodge of Good Templars. He was a general favorite at the hotel. Mr. Shaw was 67 years old.

**Barn and Contents Burned—Fall into a Well.**

REDWOOD CITY, October 14th.—At an early hour this morning the barn and contents of A. C. Lassen, at Belmont, were burned. The contents of the barn, consisting of hay, was attached a few days ago, and the sale would have taken place to-morrow. The fire took place during the temporary absence of the keeper. The loss is about $1,200, with an insurance on the building of $500 in the Ætna company.

Yesterday John Ryan, of this place, fell into his well, a distance of forty feet, and fractured his leg in two places, narrowly escaping drowning.

**Fire in Oakland—Three Chinamen Cremated.**

OAKLAND, October 14th.—Just before two o'clock this morning a fire broke out in the one-story wash-house at Seventh and Market streets. Three Chinese were burned to death, and Mr. and Mrs. Brown, who lived next door, narrowly escaped. The Chinese were stupified from the effects of opium. On the way to the fire Joseph Flannery, a fireman, was run over by a hook and ladder truck, and received injuries that will probably prove fatal.

**After the Fire.**

WILLOWS, October 14th.—Already the owners of buildings destroyed by the great fire of Sunday morning are preparing to rebuild. The debris is being rapidly removed, and the new buildings will surpass in value the ones destroyed.

**A Batch of Chinese Murderers.**

SAN JOSE, October 14th.—Jung Ah Sing, charged with the murder of Henry Vandervoorst, August 7th, has made a statement implicating Ung Ah Heung, Chung Ah Look and Ung Lee Cheung, and all have been taken into custody. It is said they had other murderous schemes under consideration, one of which was to kill and rob J. H. M. Townsend, Jung Ah Sing's employer.

**Shocking Death of a Boy.**

STOCKTON, October 14th.—This morning George O'Brien, 15 years old, while attempting to board a train on the Stockton and Copperopolis Railroad, while in motion, fell under the cars and was instantly killed, the wheels passing over his body and mangling him horribly.

**Jewelry Store Burglarized.**

TRAVER, October 14th.—Hayne's jewelry store was burglarized last night, and a large number of watches were taken. No clue to the robbers.

NEVADA.

**Reno Races.**

RENO, October 14th.—In the pacing race, Ackerman and Prince each got a heat yesterday, and the race was postponed. To-day Nevada won in three straight heats. The best time was in the last heat—2:25½. Moonlight beat Question in the mile and an eighth dash, and Atchison beat Lige Clark in the half-mile dash. The pacers go again Saturday.

OREGON.

**Wife, Children and Creditors Deserted.**

PORTLAND, October 14th.—Dr. J. B. C. Phillips, one of the proprietors of the Hawthorne Sanitarium in this city, left here three weeks ago with all the money he could collect. Yesterday his wife received a letter from him saying she would never see his face again. She has two children. Phillips has a mother living in San Francisco. He came here from Chicago six months ago with letters of the highest recommendation.

WASHINGTON TERRITORY.

**Suicide Through Despondency—Killed by a Runaway Team.**

WALLA WALLA, October 14th.—Fred. Park, a farmer living near Colfax, W. T., suicided last night with morphine. The cause was despondency over a domestic difficulty.

Patrick Keating, a rancher living near Almota, W. T., was killed to-day by a runaway team.

**The California and Oregon Railroad.**

The San Francisco *Post* of last evening contained the following:

A telegram from London has been published in this city, stating that the Oregon and California Railroad has been sold to the Central Pacific. It seems so strange that four hundred miles of road could be sold in that off-hand manner without anyone here knowing about it, and especially as Senator Stanford had declared a few days ago that the California and Oregon would not be completed unless the land grant was confirmed, that a reporter of the *Post* was sent to the railroad office to make inquiries. He was referred for particulars by the executive department to Colonel Creed Haymond, the active head of the Central Pacific law department.

"The Central Pacific Railroad or any of its corporate branches has not purchased the Oregon and California road," said Colonel Haymond, most emphatically, "and it is not likely to do so until the land grant is confirmed."

"But the telegram from London says the sale has been made, and part of the agreement is that the California and Oregon is to be completed to Ashland at once."

"It does not matter what the telegram says," replied Colonel Haymond. "The road has not been sold to us. The terms of the contract are simply a proposition of the Oregon and California bondholders to this company, but it was not accepted. Perhaps that is how the false telegram was sent—by mistaking an offer for a purchase."

"How does the matter really stand?"

"The Oregon and California road is in difficulties. It does not pay the interest on the bonds, and it has got to be sold. Naturally the bondholders, who have no security but a profitless road, want to sell on the best terms, for, should the Oregon land grant be forfeited, they would have virtually no security. But, on the other hand, why should we buy a profitless road, when the land grant, which is its sole valuable attachment, is in jeopardy, and not only buy, but saddle ourselves with an agreement to complete the California and Oregon at a cost of $9,000,000, whether its land grant is confirmed or not? The Central Pacific would like to buy the Oregon and California on terms that would make such a purchase have a reasonable hope of profits; but even if we determined to buy at any price, there are no funds available. Western railroad bonds, without a land grant, cannot be sold at any price now, and this company is very short of money. It could not raise the money without the land grant, if it wanted to do so."

"Is not the road likely to prove very profitable?"

"No; not for years, at least. There are already more transcontinental roads than there is profitable business for, and the local business is not enough to pay operating expenses. The fact that the Oregon and California can't pay its interest should show that there is no bonanza in the road. Still, if Congress will leave us the grant, we would like to go on and complete our road and buy the Oregon road. This could be done by selling the bonds, which, with the land grant as security, can be remarketed. The Act of Congress provides that if either company fails to complete to the State line the other company may make the connection, with the consent of the State, and receive the land which that part of the road is entitled to. The road is a military necessity, and a necessity to the prosperity of San Francisco, but we can't build it without money, and money cannot be got without the land grant."

**Otter Hunters.**

The following is from the Monterey *Argus:* It has been known for years that the sea coast in the immediate vicinity of the San Rancho was the home of large numbers of sea otters, but until this year no organized effort, that we know of, has ever been made to turn this fact to account. Something like a year ago the Nidiever Bros. took up a claim just below the Sur. After being there a short time they became aware of the fact that otter hunting promised greater returns for labor and time expended than did agricultural pursuits, and immediately set about to secure the necessary apparatus for hunting the animals on a large scale. About three months ago a company was formed, a small yacht purchased, and a trip made up and down the coast facing the Sur. They were eminently successful, forty-five pelts being captured in a few days' time. Another cruise was then made down the coast as far as Santa Barbara, which added thirty-five pelts more to their catch. These were taken to San Francisco and sold at a handsome profit, none of the pelts selling for less than $60, and one, a very large, handsome one of a light brown, spotted color, being held as high as $000. Week before last the Nidiever brothers returned to the Sur. Abandoning the yacht, they have now three small boats, with a crew of ten men, and with these they expect to double up on their former catch, and without leaving the confines of the Sur. We understand that another company is talked of, to operate just north of the Sur, where the animals are said to be unusually plentiful. The otter is an aquatic animal, and feeds on fish, mussels, abalones, etc., all of which are found in abundance in the vicinity of the Sur. These animals have a great many peculiar habits, and among others is one which struck our informant as being something akin to human, as follows: When alarmed, if they have young ones not old enough to take care of themselves, the mother tucks them under her fore leg and dives under the water, coming up at short intervals for air. Each time, on arising to the surface, the mother turns her head and blows strongly in the faces of her babies, to clear them of water that might otherwise interfere with free breathing.

**Hunting a Market.**—The Virginia (Nevada) *Enterprise* has the following:

Chris. Bachtold, of Winnemucca, is preparing to ship about 8,000 sacks of wheat to San Francisco, where grain and flour command a better price at present than in Nevada. Peter Rask is hauling barley to Winnemucca for the purpose of shipping the same.

Light papers make a dark, dingy room much more cheerful; large figures make a small room look much smaller and occasions much waste in matching the figures. All low rooms should be papered with striped paper, having the stripes running up and down, as it makes the room seem much higher. Subdued tints take off the glare of too many windows. The best effect is produced by having a paper with pattern and colors of a quiet tone, such as does not at once strike the eye on coming into the room. The paper should relieve and set out the furniture that stands in front of it, not attract attention from it.

## AFFAIRS ABROAD.

[LAST NIGHT'S DISPATCHES TO THE RECORD-UNION.]

**The Sultan Hesitating Between Divergent Counsels.**

CONSTANTINOPLE, October 14th.—The Porte is awaiting the final reply of the Powers before taking decisive action. A portion of the Cabinet recommend the recognition of the Bulgarian Union. Others are of the opinion that Greece and Servia will remain tranquil if the union is not recognized. The military party, in view of the silence of the Powers, assign that they are unagreed as to what course to pursue, and urge that Bulgaria be invaded; that the Great Balkans be occupied; that the Bulgarian town of Widda be given to Servia in order to weaken Bulgaria and conciliate Servia, and that the districts of Hermanha, Hoskauli and Pomak be seized as a war indemnity. The Sultan hesitates between these divergent counsels, leaning rather to a policy of conciliation. Meanwhile military preparations are unabated. Krupp has been urged to hasten the delivery of guns, the payment for which has been guaranteed. Everything indicates an early invasion of Bulgaria. In leading Turkish circles the opinion is expressed that a majority of the Powers are inclined to refuse to recognize the Bulgarian Union, as they consider that that course would be the least dangerous to European peace. Marquis De Noville, the French Embassador, and Herr Von Radowitz, the German Embassador, express astonishment that the Turkish Government did not send troops to Eastern Roumelia at the beginning of the trouble. Other foreign Ministers are less out

There were 49 small-pox deaths yesterday in Montreal.

A formidable gang of counterfeiters has just been broken up in western Pennsylvania, eleven of the gang having been captured.

Additional returns from the Ohio election this morning do not materially change the situation in the Buckeye State. The Republicans have elected their State ticket by a rousing plurality, and undoubtedly have secured a majority of the Legislature on joint ballot.

## THE REIGN OF THE HOODLUM.

It is becoming a serious question whether the hoodlum reigns in Sacramento, or decent, order-loving people. At night the chief streets of our city present to view altogether too many of the hoodlum class; most of them are armed to the teeth, and not hesitating to rouse slumbering citizens by the crack of the pistol. The "all-night houses" are favorite resorts with them, and the villainous courage they receive in these places emboldens them to all sorts of nefarious deeds. Shootings by them, and by citizens in defense of their lives and property, are the result. We do not purpose to inquire at this time into the causes of hoodlumism. They are patent enough. But it matters little what they are. It is sufficient to know that the hoodlum has small fear of the law or its officers. Our police force is, of necessity, small, and the beats of the officers are out of all proportion to the duties of efficient peace officers. The hoodlum has no difficulty whatever in taking advantage of the broad territory the roundsmen must traverse, to do their deeds when the watchman is far distant. It may be that it will become necessary for all good citizens to arm themselves and give the hoodlum some of his own medicine. Men have, within the year, been knocked down and robbed, the property of citizens destroyed, the night made hideous with the shouts of revelry, women and children assaulted, and the peace of the people broken—and all in spite of the police. It is popular and easy to blame the force, but so far as close observation reveals the truth, we believe it is as vigilant and effective as it can be expected to be. The Constitution and the laws under it, give this people the right to set up and enforce regulative measures that will clip the wings of the hoodlum. One of these would be the closing of the "all night" houses, say at midnight. Citizens claiming to be reputable will approve the righteousness of this suggestion, and aid in making it effective. Another would be to narrow the "down town" beats and mount the officers on speedy horses for the outside beats. Still another would be to swear in a force of a score of citizens as special officers, who are willing to serve for the good of society, in that capacity, as occasion demands, and thus be entitled under the law to carry arms and make arrests. That method has been tried in other cities, and has worked well. The streets of Sacramento should be as free of objectionable characters at night as by day. As it is, the opium-joints, the all night houses, the low dance-houses, and other vulgar places, spew out upon the highway at night a class of hoodlums and the leeches that live on the earnings of disreputable women, that would better society if each festive member of the crew would hang himself. At times these rough fellows congregate upon street corners and indulge in such loud-mouthed language, that no citizen escorting his wife or daughter will venture to come within hearing. The hoodlum class is by no means confined to the male sex. There is an augmentation of the lowest order of the disreputable women of the street that is unaccountable in these hard times. They should be driven out—just the same. There is a broad field for active work in the matter of preserving the peace and order and decency of the city, for the slumbering Citizens' Association. It has the opportunity now to awaken and emulate the example of kindred organizations that have done so much good in Philadelphia and other cities.

## A TEST CASE.

The United States District Attorney at San Francisco has intervened in a habeas corpus application made by a Chinaman who is detained on shipboard as not entitled to land in the United States. This is to be a test case as to the jurisdiction of the United States Courts in such cases, and is in the direction of the suggestion made by the newly-appointed Collector of Port, Judge Hager. His view of the question was recently fully treated in these columns, and the position taken was fortified by the opinion of a prominent jurist of the State, in a communication addressed to this journal. In brief, it is that a Chinaman restrained from landing is not deprived of his liberty, but only of entry upon American soil, and that the writ of habeas corpus is not to be used to give one the right to come into a territory in violation of law, which is forbidden him by an Act of Congress passed in conformity with a treaty made with China. The party is at liberty to go where he pleases, but not to come into United States territory. He has gained no right in the United States, and is therefore deprived of none. It is thus a Federal and diplomatic question, and not one for the Courts at all. We believe that this position of Judge Hager is a correct one, and that it will go far toward solving the involved Chinese restriction question. It is to be hoped that the United States District Court will see its way clear to maintain this view of the case.

## OHIO.

From present advices, it appears certain that the Republicans of Ohio have achieved a decisive victory, and that the Democracy and the whisky ring have been drubbed soundly. The surprise of the election seems to have been the Prohibition vote, which this year was largely drawn from the Democratic party. Had the Democracy of the country been true to their leader, the President, the people would have reposed more confidence in the party. But the ill-disguised animosity of the party bosses to the civil service policy of the Administration has had its legitimate result, and the spoils men have been taught that sincerity is a virtue, even in politics. John Sherman will go back to the United States Senate, and the protection of the political rights of the freedmen in the South will become one of the leading topics in the Senate, with Mr. Sherman as a champion of non-discrimination. We may now look with confidence for New York to wheel into line, and for the house of Tammany to receive a rebuke that will effectually cow it.

THERE have been made recently to the British Medical Association demonstrations of the fact cold does not of necessity destroy disease germs. It is popular belief that winter kills off germs of diseases, especially of those that are liable to become epidemic. But the experiments of the Association show that even Arctic rigors do not kill all germs. Their active influence may be and is largely stayed by freezing temperature, but with the return of heat these germs revive. In the case of yellow fever we know this to be true in our own country. Where victims of the fever are buried, even two and three freezing winters do not kill off the germs that infest the grave soil. It will help those who sneer at sanitary science, and imagine that winter wipes out all danger, to a clearer view of the truth to learn that such a faith is delusive; that it is worse, for it cultivates a habit of neglect that results in untold human suffering.

THE New York *Herald* says the experiment that is being tried in New York is one to demonstrate whether or not the Democratic party can go ahead by moving backward. That is to say, the party in New York courted and won the reform element—so styled, at least—to its support last year; but this season, that agency having served the turn of the Democracy, the party proposes to go it alone, and in a direction divergent from reform. Of course there can be but one result, if intelligence prevails.

ADVICES from New York give the news that opposition to Governor Hill is developing inside his party lines. It comes from so much of the Democratic membership as believes in civil service reform. This renders the situation of the Democracy in New York more precarious still, and now handicapped by the Ohio defeat, it had as well make ready to give up the ship.

THAT VOLCANO AGAIN.—The *Inyo County Register* furnishes the following:

Now comes George M. Clarke, our Justice of the Peace, with some reliable testimony concerning that alleged volcano near Mammoth. He says there is something of the kind there for a fact, having himself seen it. It is located near the apex of a lofty volcanic cone some six miles from the old town of Mammoth. Climbing to it early last week, he and others found a hole there some three or four feet in diameter. At times smoke, then again steam, as if from a deep mining shaft, was curling gently up from this hole. There was no notable rumbling or rushing noise, nor anything in particular to terrify anybody, except the certainty that it was nature's laboratory below that was producing this smoke and steam, and not man's. The hand could be held over this crater indefinitely without suffering from heat in either the steam or smoke. A stone thrown in continued its descent until its knockings against the sides grew so faint they could be no longer heard. This information comes to us at second hands, but it is reliable. The new wonder is about forty-five miles distant from this place, from which, were it anything like a first-class volcano in full blast, its light and smoke could be seen.

## QUARANTINE ORDERS ISSUED FROM WASHINGTON.

### The Ohio Election—New York Politics—Races in the East—General Items.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

**The Election in Ohio.**

CINCINNATI, October 14th.—The counting of the returns of yesterday's election is in a chaotic state. In precinct F, of the Nineteenth Ward, when the count had proceeded so far last night that 284 unscratched Democratic tickets and 56 unscratched Republican tickets had been counted, the Judges stopped their work, and it has not yet been resumed. In precinct D the box has not yet been opened since the polls closed last night, because one of the Judges holding the key cannot be found. There are 424 votes in this box, according to the dial. These two precincts, and one in the country, are missing from the tables, from which it appears that Foraker has a majority of 537 in Hamilton county. The county precinct which is missing last year gave a Republican majority of 17. The total vote in precinct F, of the Nineteenth Ward, is 454. From these data the Republicans claim that Foraker carries the county. The returns on the legislative ticket are not nearly so complete, but it appears that it runs ahead of Foraker at the rate of two to a precinct. This would make the legislative vote about 400 greater than Foraker's. There is no possibility of a complete report from Hamilton county to-night, and indeed nothing can be safely predicted upon this county until the official count is made. The fact that in one precinct the Judges found more than 200 votes in excess of the whole number of registered voters, coupled with the irregularities with reference to the two precincts above mentioned, has caused a deep feeling of indignation. This found expression this afternoon at a meeting of the Committee of One Hundred, composed of prominent business men of both parties. Action was taken looking to the prompt and fearless prosecution of all offenders. One man begged the committee to omit nothing that should be done for want of money, as he would meet all bills, even to the extent of $5,000, if necessary, to punish and prevent frauds against the ballot-box.

WHERE THE PROHIBITION VOTE CAME FROM.

NEW YORK, October 14th.—A Columbus (Ohio) special to the *Commercial* says: The largest Prohibition gains are in Democratic precincts, thus showing that the Democratic leaders, who tried to make a cat's paw of the Prohibitionists, have been seriously burned. The Republicans, with their better organization, got out their vote in the cities, while in the country, where the feeling seemed most in their favor, the vote was not so fully drawn out. A cold rain fell all day, with no more than half an hour's cessation at any time. This did not seem to have helped the Democrats. As heretofore, the Germans in all the cities went strongly for the Republicans. The colored men to a considerable extent polled with the Democrats. Cleveland's friends are much depressed by the Republican victory. They do not disguise the conviction that it will have a bad effect on the Democratic canvass in New York. It will be remembered that Hoadly declined to be a candidate for renomination, and that he visited Washington and was persuaded to take the field by the direct solicitation of the President.

OPINIONS OF THE PRESS.

NEW YORK, October 14th.—The *Post's* leader says: "According to present appearances, the Ohio Democrats have got their thrashing. The majority against them may not be large, but it is sufficient. They have misused the advantages which the fair fame of Cleveland's administration placed in their hands by failing to indorse his civil service policy and treating it with ill-disguised contempt or open hostility. They went into the campaign with no issue that appealed to the popular desire for reform of any sort. The spoils system and the liquor interests were their main reliance in the campaign. Governor Hoadly was better than his party, but his ability and good character were overborne in public estimation by his surroundings and outweighed by the bad conduct of the Cincinnati *Enquirer* gang. It is a surprise to be told that the Prohibition vote was taken from the Democrats in as large proportion as from the Republicans. It will be well to wait some further testimony on this point. One of the consequences of the election will be the return of Sherman to the Senate. He will thus have an opportunity to introduce a bill to reduce the representation of the Southern States in Congress in proportion as he thinks the colored men are disfranchised. We shall await the details of this measure with deep interest. Another consequence, and a happier one, will be to make the punishment of the spoils Democracy in New York more decisive than it would otherwise have been. Hill represents a half-concealed hostility to President Cleveland's policy, which dominated the Ohio Convention in August. He stands for the spoils system and will fall with it."

The *Mail and Express* says: The results in Ohio will put new life, energy, vigor and hope into the Republican campaign in this State. They will be worth at least 10,000 votes to the New York Republican ticket, and perhaps twice that number. They show the vitality and strength of the Republican party under a bold, aggressive Republican leadership. They are tremendous blows at the Administration of Cleveland, whose candidate Judge Hoadly was.

BOSTON, October 14th.—The *Journal* rejoices over the result in Ohio, and says: The election of the Republican Legislature is a matter of national importance, since it makes certain the re-election of that lifelong, steadfast Republican leader, John Sherman. In every way the result is of the greatest importance to the Republican party.

DEMOCRATS IN WASHINGTON SURPRISED.

NEW YORK, October 14th.—A *Post* Washington special says: The result in Ohio was a great surprise to the Democrats here. Various officials seem quite at a loss to furnish a satisfactory explanation, as they had been led to believe from the advices which they received that the Republicans would certainly lose and not gain on the vote of 1883. Democratic officials generally choose to assign only two possible reasons for the defeat: First, the Germans of Hamilton county were dissatisfied with the local government in Cincinnati, and determined to defeat what they call the "ring." Second, the Prohibition vote, which seems to have considerably increased, drew as much from the Democrats as from the Republicans.

Muldrow, Assistant Secretary of the Interior, says: "I think it is to be explained by the fact that the Prohibitions ranks were swelled from the Democracy. Prohibition is becoming a very important factor in elections in the South, and I judge that it has been in Ohio this time."

No one has succeeded in obtaining any expression from the President upon the result. Those near him say that he stated prior to the election that whoever might be elected the policy of the Administration would remain the same.

THE ADMINISTRATION ASTONISHED.

WASHINGTON, October 14th.—The result of the election in Ohio is a decided surprise to the Administration and to Democrats generally here. It had been believed that Hoadly would carry the State ticket through, but the Legislature was in doubt. Some Democrats strongly believed that they would carry the Legislature. It was known that Hoadly had only consented to run after a consultation with the President, and it was believed that the Administration was giving him all the aid possible without forfeiting its policy of non-interference in State elections. The returns were received at the White House up to midnight, but Colonel Lamont said he had got all the news he wanted at half-past 9. Officials who have been spoken with to-day are disposed to think the result in Ohio will have no effect upon New York. They say that they expected the State would go Republican, as Ohio is generally safe for the Republicans. The latter statement is true, but the first is not. Democrats of the old school lay the blame on the President, for his delay in making appointments, and they attribute his defeat in Ohio as a rebuke to Mr. Cleveland's policy. They hope it will be a lesson to him, and that he will hereafter consult with the simon-pure Democracy and not with Mugwumps. One thing is generally conceded, and that is that the result yesterday has insured the return of John Sherman to the Senate, and also brought him prominently forward as a Presidential candidate in 1888.

REPUBLICAN AND DEMOCRATIC ESTIMATES.

COLUMBUS, October 14th.—The Republican State Executive Committee estimate the plurality of Foraker (Republican), for Governor, at 20,000, in case the present ratio of gain should continue in the returns from Tuesday's election. The Democratic committee expresses the belief that the plurality will not exceed 15,000, if it reaches that figure. Governor Hoadly is inclined to the belief that Foraker's plurality will not be more than 10,000 or 12,000 when the official returns are secured. Both committees are still claiming a majority on joint ballot in the Legislature. The Democratic committee claims that they have carried the Legislative ticket in Hamilton county, and have reliable information that they will have a majority on joint ballot, with 56 members in the House sure, and 21 in the Senate. The Republican committee's latest estimate is that they will have five majority on joint ballot, outside of Hamilton county, and in case they should carry that, with half the other doubtful counties and districts, the House would stand 71 Republicans to 39 Democrats, and the Senate 24 Republicans to 13 Democrats.

YOU PAYS YOUR MONEY, AND YOU TAKES YOUR CHOICE.

CINCINNATI, October 14th.—The *Enquirer* claims that the Democrats have carried Hamilton county by over 1,000 majority, electing all their candidates for legislative and county offices. It claims that the Legislature will be Democratic in both branches by a majority large enough to remove all danger and dispute.

The *Times-Star* has returns from all the city precincts except four, which put a different phase upon Hamilton county. The totals are: Foraker, 32,487; Hoadly, 30,584; Leonard, 886. If this is accurate, and it has confirmation from at least one other source, it would show that the Republicans have carried their entire legislative ticket, with possibly the exception of Robert Harlan, who runs in behind the others.

The *Commercial Gazette* and *Enquirer* openly charge the opposite party with fraudulent practices.

The Democratic State Executive Committee claims the Legislature on joint ballot by a majority of 3. They say they have positive information of 56 members of the House and 21 in the Senate, with 6 doubtful.

The Republican Committee claims 59 members of the House and 17 members of the Senate, with close counties and four close districts to be heard from.

BELMONT COUNTY "BOBS UP SERENELY."

CINCINNATI, October 14th.—The news from Belmont county, which was doubtful, says both the Republican representatives are elected. This makes the Republican total in the House 61.

LUCAS COUNTY.

TOLEDO, October 14th.—The Republican majority on the State ticket in Lucas county, including Toledo, will be between 200 and 300. The Republicans elect one Representative, the Democrats the other. The Senatorial ticket has about the same majority as the State ticket. The Republicans probably elect the county officers except Sheriff and Commissioner, which the Democrats secure by about 300.

UNDOUBTED REPUBLICAN MAJORITY ON JOINT BALLOT.

COLUMBUS, October 15th—A. M.—Unofficial returns from nearly all the precincts canvassed since midnight make Foraker's plurality touch 21,000, with the rest of the ticket likely to exceed that, and 23,000 votes for the Prohibitionists and 2,000 for the Greenbackers, on a total vote of over 700,000. The Legislature is Republican on joint ballot, without the 14 members from Hamilton county, by at least 5, and probably 8, but without Hamilton county the Senate is likely to have one Democratic majority. With Hamilton county the Republicans would have 33 majority on joint ballot, and a working majority in each branch.

INDIVIDUAL VIEWS OF PROMINENT MEN.

NEW YORK, October 15th—A. M.—The *Tribune's* Washington special on Ohio gives the following views of some well-known men:

Private Secretary Lamont: You know the mugwumps hold that a Republican victory in New York will be equivalent to the approval of the Administration, and I suppose, if that is so, that the case must be the same in regard to Ohio.

Assistant Secretary Fairchild: I can draw no inference as to the probable effect of the result in Ohio upon the New York canvass. I cannot see how they are connected. The Ohio campaign depended very little upon any national issues, and I cannot see that the Administration is in any way to blame, or the result in New York in any way affected.

Assistant Secretary Coon: The victory in Ohio will inspire confidence, and make enthusiasm in New York, and have a very good effect. It should add several thousand Republican votes. I have no doubt of Davenport's election.

Senator Beck, of Kentucky, (gloomily): There is plenty of news from Ohio to show that we're licked.

Ex-Governor Ingersoll, of Connecticut: It went about as I thought it would.

John G. Priest, of Missouri: I did not look for a Democratic victory in Ohio. It would have surprised me most agreeably if it had gone Democratic.

A Connecticut statesman: Once I inclined to the doctrines of Ingersoll, but I now believe that there is a hell. All I have to say is — the Dutch.

Senator McPherson, of New Jersey: Ohio is a Republican State. There is no national political significance in her vote yesterday.

**Quarantine Orders Issued from Washington.**

WASHINGTON, October 14th.—A circular, approved by the President, in regard to the maintenance of quarantine inspections at the northern frontier of the United States, has been issued to the Medical Officer of the Marine Hospital Service, customs officers and others concerned. After reciting the quarantine law, and its application to the prevention of infection from small-pox brought from the Canadian border, the following orders are made:

1. Until further orders, all vessels arriving from ports in Canada, and trains of cars and other vehicles crossing the border line, must be examined by a Medical Inspector of the Marine Hospital Service before they will be allowed to enter the United States, unless provision shall have been made by the State or municipal quarantine laws and regulations for such examinations.

2. All persons arriving from Canada, by rail or otherwise, must be examined by such Medical Inspector before they will be allowed to enter the United States, unless provision has been made for such examinations as aforesaid.

3. All persons coming from infected districts not giving satisfactory evidence of protection against the small-pox, will be prohibited from proceeding into the United States until after such period as the Medical Inspector, or any other sanitary officer duly authorized, may direct.

4. Inspectors will vaccinate all unprotected persons who desire, or are willing to submit to vaccination, free of charge. Any such person refusing to be vaccinated shall be prevented from entering the United States.

5. All baggage, clothing and other effects and articles of merchandise, coming from infected districts and liable to carry infection, or suspected of being infected, will be subjected to a thorough disinfection.

6. All persons showing evidence of having had the small-pox or varioloid, or who exhibit a well-defined mark of recent vaccination, may be considered protected, but the wearing apparel and baggage of such protected persons who may come from infected districts, or have been exposed to infection, will be subjected to a thorough disinfection, as above provided.

7. Customs officers and United States Medical Inspectors will consult and act in conjunction with the authorized State and local health authorities, so far as may be practicable, and unnecessary detention of trains or other vehicles, persons, animals, baggage or merchandise, will be avoided so far as may be consistent with the prevention of the introduction of diseases dangerous to the public health in the United States.

8. Inspectors will make full weekly reports of the services performed under this regulation.

9. As provided in Section 5, all quarantine officers, or agents acting under any State or municipal system, upon application of the respective State or municipal authorities, are empowered to enforce the provisions of these regulations, and are hereby authorized to prevent the entrance into the United States of any vessel or vehicle, person, merchandise or animals, prohibited under the Act aforesaid.

10. In the enforcement of these regulations there shall be no interference with any quarantine laws or regulations existing under or to be provided by any State or municipal authority.

JOHN B. HAMILTON,
Supervising Surgeon-General of the United States Marine Hospital Service.
Approved: DANIEL MANNING, Secretary.
Approved: GROVER CLEVELAND, President.

**The Postmaster-General and Wells, Fargo & Co.'s Letters.**

WASHINGTON, October 14th.—The Postmaster-General has decided that the Department is under no obligation to deliver mail thrown into its box by Wells, Fargo & Co., after they have canceled their stamp, and Postmasters have been requested to refuse such matter. It appears that it has been the practice of the express company to transport letters as far as their lines extend, and then place them in the United States mail for delivery, where the point of destination is beyond the limits of their own service.

**Crusade Against Vice in New York.**

NEW YORK, October 14th.—New York's pet Police Captain, Williams, was before the Senate Investigating Committee yesterday. His testimony furnishes a curious sequel to the exposures already made of our corrupt excise system. According to the *Times*, which is one of Williams' admirers, the Captain said he stood by all that he had said in his written reports about the Cremorne, the Haymarket and Tom Gould's being resorts for women of at least doubtful character; but withal he considered them proper places to be licensed. "We might as well look this question in the face, gentlemen. These fast women must be taken from the streets. They cannot help themselves oftentimes. So soon as it is known that a woman's reputation is bad most women won't employ her, and half the time they won't let anybody else employ her. There is a law against killing her. She must live, and she seeks that living in the streets, low as it is. Now, I look upon any place as a blessing that will get these people off the streets under one roof. The police know where they are. So long as the place is quiet and orderly the public does not suffer much inconvenience from it. If it is not orderly the police know their duty. The places you have questioned me about are careful to keep within the bounds of law, so far as I know. It was with a full knowledge of the kind of people they shelter that I made my reports on their applications for license."

The *Tribune* says: Every well-informed man in this city knows these resorts are a disgrace to New York. It is very well to keep the streets safe, but the police ought to strive to do more than dam up immorality within doors. Captain Williams should be a little cautious. To talk as he did yesterday is to offer direct encouragement to the stories which gravely impeach his integrity as a police officer. The crusade of the Business Men's Association against vice in the district in which Captain Williams protested the houses stand is beginning to bear fruit.

The *Sun* says: Nobody was allowed to loiter in West Twenty-fourth street last night. The new policemen kept everybody moving on. The result of the new system was the first thing reported at the meeting of the Owners and Business Men's Association when it met at 107 West Twenty-seventh street to hear what had been accomplished during the past week toward purifying that thoroughfare of disreputable men and women. Abundance of money has been subscribed, more than could be used at present. The agent of one of the houses rented for nefarious purposes is an elder in an up-town church.

**The Political Situation in New York.**

NEW YORK, October 14th.—The *Times* leads in the campaign against Hill in this State, furnishing most of the fighting material. This morning it shows Hill's career as editor of the Elmira *Gazette*, which was full of copperhead venom against war veterans, General Grant and colored voters. He opposed Decoration Day exercises as a dumb show, and said of General Grant while President: "The Pharahos once ruled the Egyptians and the Israelites as Potiphar Grant rules the negroes and the Caucasians of the United States, including Alaska and possibly San Domingo." The expedients which the Democrats are driven to in this State are shown by the printed circulars sent to clergymen of this State, urging them to oppose Davenport's election because he owned a vineyard once and is anti-temperance.

The *Times* says: The Republican canvass in this State, as viewed from the committee headquarters in the Gilsey House, is moving along smoothly and satisfactorily. The principal topic among the men who assemble there is the size of Davenport's majority. Davenport was given a reception last night at the Art Association rooms, Brooklyn. The rooms were crowded, despite the storm.

Tammany, having been repulsed by the County Democracy, sought a union yesterday with Irving Hall on the local ticket.

**The Investigation of the New York Comptroller's Office.**

NEW YORK, October 14th.—The Committee of the State Senate, investigating the municipal affairs of this city, to-day examined the balance sheet of the Comptroller's office from January, 1884. It showed the business relations of Grant & Ward with the Marine Bank, and the large preference shown during the administration of Comptroller Grant to the Marine Bank. It also showed that in 1884 the city transferred a portion of its deposits from the Importers' and Traders' regular bank of deposits to the Marine Bank. It states that the city had on deposit, at the time of the failure of the Marine Bank, $1,300,000. Deputy Comptroller Stowes stated to the committee that the deposits of the city were not made by the City Chamberlain, but by the heads of departments. The witness did not know why Comptroller Grant favored the Marine Bank by large deposits.

Isaac Barrett, book-keeper in the Comptroller's office, testified to having called the Comptroller's attention to the extraordinary balance with the Marine Bank. Ward had asked to have the deposits in the Marine Bank made as large as possible at certain times, and on one occasion had written a letter. The letter from Ward was as follows:

MAY 3, 1884.

*Mr. Montgomery*—DEAR SIR: I had a talk with the Comptroller about the bank balance yesterday, and he said he was perfectly agreeable to anything done by the Chamberlain. I am carrying some of the bonds I took yesterday in the Marine Bank, and I want you, if possible, to put the 100th or 200th in the Marine till Wednesday, as I have sold on a lot of bonds to be delivered on Monday. Let me know what you can do. Yours,
F. WARD, of Grant & Ward.

The handwriting of the letter indicated great nervousness on the part of the writer, which is not to be wondered at, as the Marine Bank failed on May 6th. The committee adjourned until to-morrow.

**The Western Nail Association.**

CINCINNATI, October 14th.—The Western Nail Association, represented by the members of about fifty firms in the West, met here to-day and unanimously adopted the following:

WHEREAS, It is evident that the great question of equalizing labor between the East and West has become a question of vital interest and importance to Western nail manufacturers; therefore be it

*Resolved*, That we hereby reaffirm our determined purpose, each and severally, that we will not operate our nail factories, except on the manufacturers' scale, regardless of what time it may require to secure the full employment of our works.

*Resolved*, That we reaffirm our purpose to retain and continue all our present employes who may become competent workmen, and that we will not employ any other workmen except those who will work with and on the same terms as our present employes.

The Association adjourned to the regular monthly meeting in November.

**A Gang of Counterfeiters Broken Up.**

PITTSBURG, October 14th.—Government Agent Sweeny and three deputies brought to this city to night four more of a gang of counterfeiters who have been operating in the northeastern counties for a long time. These arrests have broken up the band. The ring-leaders are in custody in this city, and another arrest was made this afternoon, in all eleven of the shrewdest criminals who have operated in western Pennsylvania, who are pretty sure to remain residents of the Penitentiary for some years to come. The names of the ten now in the central station are Boston Buck, Louis Whitmore, Samuel Sechrist, Ed. Harmon and Ben Farr, manufacturers of bogus coin, and George Buck and Sechrist, wholesale dealers. Boston Buck is the leader of the gang. Their "mills," as the officers call the places of manufacture, were in mysterious places in the hills, and for months they manufactured all denominations of silver coin, from a ten cent piece to a dollar, and "shoved" in Clarion, Jefferson, Armstrong, Indiana, Butler, Warren, Forest, McKean, Elk and other counties. They had a complete system, and probably considered themselves safe from detection. They had signs, signals and grips, and when a customer came to purchase the "queer" he would be taken deep into the woods, and with a gun at his head and hands raised, be forced to swear never to divulge their secrets. Probably a dozen wholesale dealers worked with the gang captured, and a hundred "shovers" passed the bogus coin off on the public.

**The Chairmanship of the Civil Service Commission.**

BOSTON, October 14th.—It was reported yesterday from Washington that the position of Chairman of the United States Civil Service Commission had been offered to Colonel Charles R. Codman, of Massachusetts. Being asked the truth of the report, Colonel Codman said to-day: "I have had conversations with the President on the subject, and have given him what I consider sufficient reasons why he should not offer the position me. The President has not made me the offer, and probably never will make it."

**The Hell Gate Explosion.**

NEW YORK, October 14th.—At army headquarters there is much rejoicing over the reports of the divers who explored the Nigger Heads on Monday, and the channel between them and Flood Rock yesterday. All accounts represent the explosion as thoroughly satisfactory. The pilots who run the Astoria ferry are unanimous in acknowledging the successful issue of the explosion at Flood Rock. They say the rocks are pretty well broken up, and Flood Rock is almost out of sight.

**Boucicault's Marriage.**

NEW YORK, October 14th.—A cable dispatch reports that Agnes Robertson, who is still Mrs. Boucicault, has a card in the London *World*, alleging that Dion Boucicault's recent marriage to Miss Thorndyke is bigamous. Mrs. Boucicault declares that she has never been divorced from her husband, Judge Dittenhoeffer, who was counsel in the divorce proceedings begun here some five years ago, says that the suit was discontinued before it reached a conclusion, and that Mrs. Boucicault is receiving $1,500 a year alimony.

**Daughter of Longfellow Married.**

BOSTON, October 14th.—Miss Annie Longfellow, youngest daughter of the late poet, was married this afternoon to James Gilbert Thrope, of Eau Claire, Wis. The ceremony took place at the Longfellow mansion, on Brattle street, Old Cambridge, and was performed by Rev. Samuel Longfellow, uncle of the bride. The wedding was private.

**"Snap Judgment" Taken on Dakota and Colorado.**

WASHINGTON, October 14th.—The Act of Congress providing for the taking of a semi-decennial census in the States and Territories authorized the Secretary of the Interior to pay half the cost of the census where the returns were filed with the Department before September 1st. Dakota and Colorado each took a census, and presented accounts amounting to $35,506 and $20,673, respectively. The certificates for these amounts were made out by the Interior Department, but upon presentation to the Treasury Department they were cancelled by the First Comptroller, because both Dakota and Colorado are indebted to the United States on account of the direct law of August 5, 1861, in the sum of $3,421 and $21,388, respectively. In such cases a sum equal to the amount due is withheld. For Dakota, $32,265 of the amount ($35,506) certified to be due has been directed to be paid, but Colorado's indebtedness is in excess of the amount certified to to be due.

**The "Backbone Grant" Again.**

WASHINGTON October 14th.—Secretary Lamar, Assistant Secretary Jenks, and the Assistant Attorney-General for the Interior Department listened to the reargument to-day on the appeal of the Southern Pacific Company from the decision of the Commissioner of the Land Office, in what is known as the "backbone grant" in Southern California. The railroad company was represented by Sidney Dillon and prominent counsel. The point at issue is the old one concerning the ownership of certain lands where the Southern Pacific and the Texas Pacific Railway land grants overlapped.

**Carl Schurz and the Civil Service Commission.**

WASHINGTON, October 14th.—It is said here the President has offered the Presidency of the Civil Service Commission to Carl Schurz, and negotiations are going on to persuade Schurz to accept. A friend of Schurz said last night that he thought the latter would be willing to serve on account of the good he thinks he could do. Congress will be asked next winter to raise the pay of the Civil Service Commission.

**Capital Notes.**

WASHINGTON, October 14th.—E. R. L. Gould, special agent of the Labor Bureau, stationed in England, has resigned, having completed his investigations.

A. J. Puckett, of Kentucky, has been appointed Timber Agent of the Land Office.

Wm. A. Vincent, Chief Justice of the Supreme Court of New Mexico, recently appointed Stephen W. Dorsey a member of the commission to draw grand and petty jurors for that Territory. He was to-day suspended from office by the President.

**The Foreign Missions Anniversary.**

BOSTON, October 14th.—At the afternoon session of the American Board of Foreign Missions to-day, the attendance was so great that Tremont Temple would not accommodate the people, and overflowing meetings were held in Music Hall and the Park-street Church. The afternoon at each was spent in listening to an address from representatives from the various missionary organizations of other churches, the speakers going from auditorium to auditorium, and repeating their remarks. In the evening a fair audience assembled at Tremont Temple. Rev. Dr. R. S. Storrs, of Brooklyn, gave an address, occupying over two hours on "The Promise for the Future, as Seen in the Progress of Christianity within the past Seventy-five Years." No previous announcement of the Board has called together so many of its co-operate members, and no such crowds have heretofore been seen at its meetings.

**The American Turf.**

BALTIMORE, October 14th.—The first day of the fall meeting of the Maryland Jockey Club was quite successful, though the track was miserable. Three-quarters of a mile: Pontico won, Swift second, Bessie third. Time, 1:20. Central stakes, one mile, for two-year-old: Dewdrop won. Time, 1:53¾. Dixie stakes, two miles, for three-year-olds: East Lynne won, Richmond second, Longview third. Time, 3:49¼. Mile and a half, for all ages: Colonel Sprague won, Pontiac second. Time, 2:51. Pimlico handicap: Bourke Cochran won, Repeater second, Quebec third. Time, 6:37½.

RACES AT BRIGHTON BEACH.

BRIGHTON BEACH, October 14th.—There was a good attendance to-day, but the track was a sea of mud. Three-quarters of a mile, for all ages: Barbara won, Castilian second, Winston third. Time, 1:21. Mile, for non-winners: Rica won, Jack o'Hearts second, Ernest third. Time, 1:48. Mile and an eighth, selling: Cardinal McCloskey won, Una B. second, Jim Nave third. Time, 2:01. Mile and an eighth, for all ages: Tenstrike won, King B. second, Hanap third. Time, 2:14. Five-eighths of a mile, for maiden two-year-olds: Aureole won, General Price second, I. H. D. third. Time, 1:04¾.

**Sentenced to be Hanged.**

CLEVELAND, October 14th.—Lewis Webster, who murdered Perry Harrington at Geneva, December 17th last, was to-day sentenced to be hanged February 6, 1886. Webster has twice been convicted of this crime. After his first conviction, he was granted a new trial, which was ended two weeks ago at Warren. A motion for a third trial was overruled to-day before sentence was passed.

## LOCAL INTELLIGENCE.

BARWICK'S BULLETIN.—The barometer last night at 7 o'clock, according to the Signal Service reports, was low and falling in California, with northwest winds and generally clear weather, it being also cloudy at Sacramento. During the threatening weather for several days past there was quite heavy rainfalls along the coast, as much as .71 of an inch at San Francisco, and but .01 of an inch at Red Bluff, with no report from Cape Mendocino. There has been no rainfall north of California at any Signal Service station since the 15th, except at Fort Canby, and there has not been over one-quarter of an inch precipitated at that point; it will therefore be readily seen that the present meteorological disturbance does not bring much rainfall—simply low barometer and cloudy weather. What is yet in store for the Pacific slope in the way of weather lies locked up in the bosom of the future, to be revealed as time passes. The barometer was falling along the entire Pacific slope, and a meteorological phenomenon that I have never seen before since I have been on this coast, and that is, the barometer stood at 29.99 inches at Olympia, Spokane Falls, Dayton, Fort Canby, Portland and Roseburg. That is a vast territory for the atmospheric pressure to be exactly the same. A storm of rain made its appearance at Tatoosh Island at 7 P. M., yesterday—a rain-storm with a northwest wind.

WHO HE WAS.—Pedro Pablo Hurtado, who was found in a dying condition on the sidewalk at Third and L streets Tuesday night and taken to the station-house, died at that institution early yesterday morning. He was a Peruvian Indian, aged about 50 years, who had lived in Sacramento about thirty years. He was by occupation a stevedore, but something over a year ago he hurt himself while carrying some lumber ashore from a barge. For some time he complained of severe pain in his back, below the shoulder blade, and later the pain changed to his breast, and he became seriously ill. His friends advised him at various times to go to the County Hospital, as he was without means, but he always refused. He is spoken of as a hard-working, steady man, of good disposition. Coroner Clark will hold an inquest in the case at 7 o'clock this evening.

POLICE COURT.—In the Police Court yesterday the cases of Wm. Wilcox and Irene Wentworth, for disturbing the peace, were continued until the 17th.....Barbara Hemphill's case of disturbance went over until to-morrow.....Mrs. A. Stoltz, for battery, was fined $5, and James Howard, for a like offense, $25.....Ah Sing was convicted of keeping an opium den, and fined $50, or fifty days.....Lilly Murray and Charles Johnson were found guilty of visiting an opium den, and the former was fined $30 and the latter $40, with the usual alternative.....Edward McGraw was tried by jury for vagrancy, and found not guilty.....F. Marius, also charged with vagrancy, was allowed to go on his own recognizance, and the case continued until 1 P. M. Saturday, which being interpreted means that he was given a chance to leave town, and was willing to accept it.

COURT ITEMS.—Judge McFarland yesterday morning, in the matter of John Lowell on habeas corpus, refused to admit the petitioner to bail, but remanded him to the custody of the Sheriff. In Department One, when Lowell's case came up for arraignment on a charge of murder, he entered a plea of not guilty, and the case was set for the 24th inst.....The case of John M. Hotz, accused of murder in killing John Green, occupied the entire day in Department One, and the evidence is not yet all in. The prosecution have been unable to make a strong case, and the defense have introduced testimony in effect that two witnesses heard Green threaten that he would kill Hotz with a certain pistol which he carried.

FLORAL GIFT OFFERING.—Friday night at the Sixth-street M. E. Church, a literary and musical entertainment will be given by the ladies for the benefit of the church. The programme, which is published in another column, is interesting and varied, including "The Flower Girl's Gift," by fourteen little girls, bearing floral offerings. The ladies have devoted much time to the perfecting of the arrangements for this entainment, and feel confident of the success of their endeavors. Refreshments will be served at the close of the exercises. The price of admission will be 25 cents.

BODY RECOVERED.—Parties who were in search of the body of Dolphia F. Taylor, the 15-year-old son of F. B. Taylor, mention of whose drowning was made in yesterday's issue, found the same about 11:30 Tuesday night. The body was recovered about fifty feet below the point where it is thought he slipped and fell into the river.

WHERE IS HE?—Mayor Brown is in receipt of a letter from Simon Bossart, of Pittsburg, Pa., who is anxious to hear from his father, Peter Bossart, who came to California in 1852. He says that his father resided in this city in the "early days," and any information respecting him will be appreciated.

COMMISSIONERS FOR CALIFORNIA.—Governor Stoneman yesterday appointed Commissioners of Deeds for California, as follows: Edwin T. Corey and Charles F. Taylor, to reside in New York city; F. Nohl, for Missouri, to reside in St. Louis; Charles F. Sawyer, to reside in Denver, Colorado.

AUCTION SALE.—Bell & Co. will sell at auction at 10 A. M. to-morrow, at their salesrooms, Nos. 1004 and 1006 J street, four truckloads of household furniture, consisting of beds, bedding, bureaus, chairs, benches and miscellaneous articles. Also four fine store counters.

PINK TEA.—The ladies of Sumner Relief Corps, No. 11, will give a "pink tea" and social dance at Grangers' Hall this evening, and have made extensive arrangements guaranteeing a fine time to all who attend. The price of admission is only 25 cents.

## CORONER'S INQUEST.

**Evidence Given at the Inquest Held Over the Remains of W. H. Harris.**

At 7:30 P. M. yesterday an inquest was held at Coroner Clark's office on Fourth street, over the remains of Henry Harris, who was shot on Sunday morning last by M. Zeller, in front of Paine's stable, on K street, between Fifth and Sixth. The witnesses testified as follows:

Thomas McCants said he knew the deceased since he was a child. Think he was about 21 years of age. Was present at the difficulty that resulted in his death. Harris, myself and a man by the name of Lewis were on our way home. A man asked us to take a drink, and we went into the saloon at Fifth and K streets. When I came out there was a difficulty. I saw Harris retreating from the crowd, and apparently trying to defend himself. Heard the shot that killed Harris, but don't know who fired it. Don't know whether he was armed or not. Never knew him to carry a weapon. Did not know that Harris was shot at the time, and did not know it until I was arrested by officer Brissel in an oyster house above on the street a short time afterwards. Before the shooting I was asked out of the saloon by a man whom I thought "wanted to jump me." Then it was that I saw and heard the row. The man who asked me out was not very drunk. Harris was pretty full at the time, but could walk straight. I was at the end of the crowd when the shot was fired, and after that I could not find Harris. I had been drinking considerable myself, and did not know any one had been shot until I was arrested.

Nathaniel Lowe—I came to this city last fair week. When at home I live on Pine street in San Francisco. Was at work at my trade, that of printer, for Harry Weaver, during fair week. I happened to come along at the time of the homicide. Saw some men quarreling in front of Paine's stable. Was attracted to the row; somebody was down, and saw two men advancing upon each other. One had his hands up, the other his hand on his hip pocket. Did not see which one fired the shot. The man who had his hands up fired the shot, I think. Harris afterwards ran across the street. The air was full of oaths; could not tell who it was that used the vilest language. My hat was knocked off in the row. On going home, which I did with Mike Zeller, he told me he fired the shot, saying, "He pulled upon me, and I shot him." At that time we neither thought Harris injured. Mike Zeller was sober, and claimed that what he had done "was in self-defense." Zeller apparently was endeavoring to get away from Harris. It was so dark that I could not distinguish the features of any one. I was in the company of Mr. Fogarty, who is employed as a pressman at H. S. Crocker & Co.'s. I stop at the Pacific Hotel. Harris and Zeller came from the crowd, the latter apparently retreating. Harris ran immediately after the shot, across the street. Zeller said to me, going home, that he was obliged to carry a pistol. He did not say anything about having an old grudge against Harris.

J. M. Sullivan, police officer, who arrested Zeller at his residence, on Fourth street, between S and T, said: When Zeller was arrested he admitted the shooting, saying that Harris put his hand behind him, saying, "I will fix you," and then Zeller said he shot him.

District Attorney Buckley said he called to see Harris on Sunday last. Harris said at that time: "I expected to die." He said that on the night of the row he was in the saloon with some twenty others. There was a row. A Skye terrier kept biting his pantaloons, and he kicked the dog several times. He was standing near the edge of the sidewalk, and said a man came up, and, pointing a pistol to his breast, shot him. He did not know why it was done, unless the dog belonged to the man, or else he was annoyed at his kicking him. He made that statement knowing, as he said, "that he was dying."

Leonard Harris, father of the deceased, said: William Henry Harris was a native of California, 21 years and 10 months old.

The surgeons who held the post mortem said that the cause of death was a bullet wound in the upper part of the left side of the chest, near the median line, fracturing the first rib near its junction with the breast bone, and partially severing the subclavian vein, which caused a hemorrhage.

The jury retired, and in a very few moments returned the following verdict: "At an inquest held upon the body of a man who was shot on Sunday morning, October 12, 1885, on street, between Fifth and Sixth, on the side, and died at his father's residence, Tenth street, between O and P, on Wednesday morning, October 14, 1885, we, the Coroner's jury, being duly summoned and sworn by the Coroner to inquire into the death of said man, do find from the evidence before us that said man's name is William Henry Harris, a native of California, aged 21 years and 10 months. That his death was caused by a pistol shot fired by Michael Zeller."

### Blood Horse Meeting.

P. A. Finigan and Henry Schwartz, two of the Directors of the Blood Horse Association, were in Sacramento Monday and Tuesday, and said they would like to have the fall races run over the Agricultural Park course, and the same would be done if the citizens of Sacramento would raise $2,500. A meeting for the purpose of devising means to raise that amount was held in the parlors of the Golden Eagle Hotel last evening, which was attended by a large number of the leading business men of the city. The meeting was called to order by G.W. Carey, who placed in nomination for Chairman Joseph Steffens, President of the Sacramento Board of Trade, who was chosen unanimously. In assuming the duties of the chair Mr. Steffens said he looked upon this matter as something that would have a tendency to increase the trade of the city, and especially as the races were to be held in November. It would show the people that Sacramento was not only the best place to winter and develop horses, but that it was the best place in which to live upon the coast. He was very much in favor of raising the small amount asked, and said he knew it would be forthcoming just as soon as the business men of the city understood. Charles N. Post was elected Secretary. He read the advertised races, which commence on November 7th. They are all running, the purses are liberal, and the horses entered the best upon the turf. Mr. Finigan, in conversation with the lessee of Agricultural Park, said that if the arrangement spoken of could be made they would give special purses, which would enable them to have good races every day from the 7th and including the 14th of November. After short remarks by several present a subscription list was opened and the following contributions made: Robert Allen, lessee of Agricultural Park, $500; G. W. Carey, $100; P. Siebtenthaler, $100; W. O. Bowers, $100; W. P. Eldred, $50; J. W. Wilson, $25; G. W. Chesley, $25; Whittier & Fuller, $25; Stemler & Ayers, $25; A. H. Powers, $25; M. F. Odell, $25; John Conran, $25; Woodburn & Barnes, $25. Others present subscribed smaller amounts and over one-half of the necessary amount was raised. The Chair appointed G. W. Carey, J. W. Wilson, W. O. Bowers, John Conran, James I. Felter and Joseph Steffens, a committee to canvas the city this morning and raise the balance of the necessary amount. It is thought that there will be no difficulty in raising it among the hotel-keepers and merchants. The time for action is short, as a final answer must be given by eight o'clock this evening.

DIED SUDDENLY.—Thomas S. Ingham, an employe at the Clunie Opera House, died suddenly last evening. He had been unwell for two or three days, but was not thought to be seriously ill. Last evening, about 9 o'clock, at his residence, he suddenly commenced gasping, as though dying. A physician was summoned, but before he arrived Mr. Ingham had breathed his last.

CLUNIE OPERA HOUSE.—The "Colleen Bawn" continues in warm favor, and Mr. Ward nightly adds to the number of his admirers. His Myles is an admirable personation, and not a particle overdone. The scenery is of the very best order, and the house is as comfortable and cheerful as the most exacting could desire. The "Colleen Bawn" will be repeated this evening.

## BRIEF NOTES.

A light shower of rain fell at Woodland yesterday morning.

The "May Blossom" theatrical company passed through from Woodland to Marysville yesterday.

The case of M. Zeller, charged with murder, in killing Henry Harris, is on the Police Court calendar for to-day.

The Harvard Club will give a reception and dinner to the new President of the Mills Seminary and College to-morrow.

There was a good attendance at Calvary Church last evening to hear the interesting lecture by A. C. Herrick on "Venice, the City of the Sea."

Theodore Deming is having erected at Twenty-second and O streets a handsome two-story cottage. Sprague & Elliott contractors, James Seadler architect. Cost, $3,800.

Deputy Sheriff Wilson brought up from San Francisco last evening, en route to Folsom, Eugene Grant, who is to serve one year and six months for burglary in the first degree.

A number of gentlemen of Woodland who are adepts at field sports have in contemplation the establishment of a gun club, and a meeting for the purpose of organization will be held on Sunday next.

Golden State S. A. Chapter, No. 5, U. A. O. D., elected officers last evening, as follows: M. Hirsh, E. S. A.; A. Campana, V. S. A.; E. Q. Naghel, Secretary; A. Trope, Treasurer; F. Silva, S. E.; M. S. Vivea, J. E.

An election for Colonel of the First Artillery Regiment will take place at 8 o'clock this evening at headquarters in this city. Field and staff officers will appear in full uniform. Major Frank D. Ryan will act as Inspector.

THE RECORD-UNION'S Court report, published on Tuesday, spoke of C. W. Clark as being the defendant in a murder case in Department Two. The name should, of course have been C. R. Clark, whose case was tried some months ago.

These arrests were made yesterday: John Thompson, by officers Kent and Farrell, for vagrancy; Jack Donavan, by officer Sullivan, for disturbing the peace; R. Bull, by Deputy Sheriff Forkner, for grand larceny; Ed. Laken, by officer Ash, for petit larceny.

Judge McFarland, in Department Two, of the Superior Court yesterday, denied the motion to dismiss the petitions in intervention filed by E. D. Kennedy, Samuel Davis and the Funded Debt Commissioners in the city bond cases, and set the matter for argument at 10 A. M. of Monday next.

The lecture at the Ninth-street Baptist Church, last evening, by Rev. Dr. Chapman, of Oakland, the last of the series of three upon "The Jewish Tabernacle," attracted an audience which crowded the church to the doors, and was greatly enjoyed. A beautiful model of the tabernacle was exhibited by the lecturer.

The Southern train, due here at 9 A. M. yesterday, did not get in until 11 o'clock, having been held at Lathrop waiting for the Southern Pacific connection. The morning train of the Sacramento and Placerville Railroad was about three-quarters of an hour late in its arrival here, owing to its having had to do an unusual amount of work.

The steamer Apache attempted to come up to the city with her load of freight yesterday morning, but failed. A portion of her cargo was transferred to a barge, and she then got over the Y-street bar, but stuck on a shoal place near S street, and had to unload the remainder of her freight upon the barge, which the steamer Governor Dana brought to the city.

Detective Len Harris, father of Henry Harris, who died yesterday morning, arrived here from El Paso, Texas, by the southern train at 11 A. M. yesterday, having traveled day and night on his return to the city after hearing of his son's condition. The train by which he arrived is due in the depot at 9 A. M., but, unfortunately, was delayed. If it had not been, by jumping off at Tenth street, as he did, he would have been just in time to see his son before he died, which was at 9:05.

Arrived yesterday, steamer Sonoma, from San Francisco, with a barge load of lumber for the Friend & Terry Lumber Company and W. F. Fraser; steamer San Joaquin No. 4, from San Francisco, with general merchandise; steamer San Joaquin No. 3, from Port Costa, light; steamers Ceres and Dover, from the upper Sacramento, with grain; steamer Neponset No. 2, from the upper Sacramento, with produce and grain. Cleared, steamer San Joaquin No. 3, for the upper Sacramento, light.

Wm. Lessenbrook, while baling hay for A. Menke, on the latter's ranch, Brighton, on Tuesday, had his right hand perforated by the latch of the hay press door, something having slipped and allowed the door to fly open. Fortunately the iron did not encounter any bones, passing between the joints of the thumb and forefinger. He had been contemplating a return to Kansas on a visit to his father and mother, and, concluding that the injury would disable him for some time, he started eastward last evening, to return in the spring.

### A Bit of Romance.

If the course of true love be not always smooth it sometimes leads to the right spot at last. Something more than a score of years ago there was among the then young ladies of Sacramento one who was especially popular in society. She was pretty, amiable and entertaining, and had no lack of admirers and suitors among the gentlemen of the city and surrounding country. Like the majority of young ladies, however, she had her preferences in the matter of beaux, and in due course of time her affection centered upon a dashing young gentlemen whose attention had been noticeably assiduous. Indeed, they both loved, and for a time they lived, as it were, only in the light of each other's eyes. But, as often happens in such cases, a change came o'er the spirit of their dreams. Not alone were obstacles placed in their pathway by over-officious relatives and meddlesome friends, but personal misunderstandings arose between them, and finally their engagement was broken off by mutual agreement. The gentleman some years afterward removed from Sacramento, and became in a measure lost to his former friends and associates. The years flew by, and in a neighboring State he formed new attachments and finally married. Not long ago he became a widower. In the meantime the object of his former affections gradually drew away from her throng of gay young friends and led a quiet, unobtrusive life as the head of her widowed father's household. Toward the younger members of the family she fulfilled a mother's duties. As the years rolled by her cares increased, but she bore her cross uncomplainingly and with the fortitude of noble womanhood. She was often the recipient of attention from some of her former admirers, but receiving no encouragement they one by one withdrew. Late and early she toiled—year in and year out—for those whose helplessness made them almost wholly dependent on her. By-and-by the roses partially faded from her cheeks; her eyes lost some of the sparkle that made them so captivating in her girlhood days, and years of hard struggles with adverse fortune robbed her form of much of its youthful grace. Recently her health became so poor that physicians advised her to take a short sea voyage. She did so, and in the course thereof found herself for a brief period in one of the thriving seaport towns on the northern coast. Here she met her former lover, and it appears that in the breast of each the old affection—which had slumbered for more than twenty years—was quickened into new life. There were mutual explanations, renewed pledges of undying affection, and a few days ago they stood before the altar and promised to love, honor and cherish one another, etc., just as they would have done in the bright heyday of youth, had Cupid been unmolested in the development of his plans. It is to be hoped that both have found that happiness which true love merits, and that the bliss of their remaining years may overshadow the disappointments of the past.

FOUND IT IN ARIZONA.—Many Sacramento merchants are interested in mines throughout the Pacific coast, and why should they not be? for Sacramento to-day supplies more than two-thirds of the demands of their trade. A. H. Powers & Co., of this city, partners with Spruance & Stanley, of San Francisco, have at last found a mine which will likely take them out of the mercantile business and place them with the mining millionaires. The Mohave *Miner* of a recent date, speaking of this Sacramento firm, says: "Stockton Hill has long been known as the richest mining camp in the county, and for the size of its ledges and the general average of its ores, is probable one of the richest in the world. Among the many rich mines on this hill is the Cupel mine. This mine contains in its boundaries six parallel veins, all of which contain rich ore. This property is the oldest and best known on the hill, and is owned by the wholesale liquor firm of Spruance, Stanley & Co. About a year and half ago this firm spent some $20,000, for which the owners have nothing to show but a double compartment shaft 110 feet deep, and a drift run on the 100-foot level about 210 feet long. After this work was completed the mine lay idle for months, until J. K. Mackenzie leased the property for six months. He has now been working about two months, and has taken out about $10,000 worth of ore, on which he pays a royalty of 25 per cent. His last shipment sampled a little over $300 per ton, and he now has a full carload of this grade of ore on the way to Kingman. It has produced so far as known something like $150,000 in the past, and from present indications will produce one-third of that amount under the present lease. Mr. Mackenzie now has about twenty-five men at work, but expects to put on a much larger force as soon as he gets the water out of the drift. He is now working three shifts for that purpose."

SKATING RINK.—The Pavilion Skating Rink will be again opened to the public next Saturday evening, when everything will be new and first-class. A maple floor, said to be the finest on the coast, has recently been laid by the lessees, and the "Star" skate will be used. The prices of admission will be for gentlemen 25 cents, ladies, 10 cents. A reasonable charge will be made for the use of skates. Skating will commence at 7:30, and continue until midnight.

HORSETHIEF ARRESTED.—Deputy Sheriff Forkner, of Lassen county, met on the street last evening a young man named R. Bull, for whom he was looking on a charge of grand larceny. The prisoner is alleged to have stolen a horse and cart at Greenville, Plumas county, and subsequently sold the property at Chico.

## ANOTHER LIFE SAVED.

Mrs. Harriet Cummings, of Cincinnati, Ohio, writes: "Early last winter my daughter was attacked with a severe cold, which settled on her lungs. We tried several medicines, none of which seemed to do her any good, but she continued to get worse, and finally raised large amounts of blood from her lungs. We called in a family physician, but he failed to do her any good. At this time a friend who had been cured by DR. WM. HALL'S BALSAM FOR THE LUNGS, advised me to give it a trial. We then got a bottle, and she began to improve, and by the use of three bottles was entirely cured.

## FIVE DOLLAR SHOES FOR FOUR.

The mere fact that a "Lady's French Kid Button Shoe" is here at four dollars, is within itself not a very strong statement; but if the quality of this particular shoe be considered in connection with the price, then it does become a VERY TELLING FACT.

The shoe in question is of medium shape, satin-finished, and in material, work, style and finish in no wise different from our regular five-dollar shoes.

But why should a shoe that is worth five dollars sell for four—especially here, where everything is marked according to value?

The answer will bring to light one of those strange freaks of trade competition.

We carry about a dozen styles of ladies' five-dollar shoes, and probably as many makers supply us with them. Now comes another firm who say in substance: "We want to sell you our goods. We want you to buy of us and not of those other dealers. Take our shoes and we will cut the prices so much that you can afford to sell them for seventy-five cents or a dollar less per pair."

Of course the reasoning is easy. This firm expects that our customers will prefer their goods on account of the price, and that eventually they will thus build up a large business with us.

It is a sort of manufacturers' speculation, and whether or not these men can afford to continue the policy they have commenced is more or less a matter of doubt.

However, that is of no interest to our customers. It is sufficient for them to know that at present we have an abundant supply of these shoes, in all sizes, *and at* $4 *per pair.*

Alfred Smith, the millionaire real estate agent and broker of Newport, R. I., lies in a very precarious condition, having been seized with an epileptic fit. He loaned James R. Keene the last $75,000 borrowed upon his Newport property just prior to his smash-up.

Miss Folsom, who has been a guest at the White House for several days, will go to New York the last of this week. She intends to sail for Europe the first of next week. Her departure will put an end for some time to the gossip fixing her engagement to the President.

Mr. Blaine will not take a house in Washington this winter with his family, but will remain in Augusta at work on his book. Walker Blaine says that the family preferred to remain in Augusta, and, besides, much of the material his father wanted for his book is there at hand.

Webster, of the firm of publishers of Grant's life, has returned from Europe. He says the sale of the book, in England particularly, promises to be very large, and in Germany and other parts of the Continent to be extremely gratifying. By the contracts made in Europe Mrs. Grant will get 55 per cent. of the profits.

Great activity prevails in military circles throughout Turkey. Troops are being hastily armed and equipped for immediate service. The Sultan has determined to fight against a further dismemberment of Turkey, and large bodies of troops are being rapidly concentrated on the frontier at strategic points, within easy striking distances of Bulgaria, Greece and Servia.

Churchill, Salisbury and Dufferin disagree in regard to the measures necessary to preserve British influence in Upper Burmah. Gladstone's Government sent Lord Dufferin to eliminate the French intrigue in Burmah. Salisbury is satisfied with the assurances of the French that they have no designs in Burmah. It is thought probable that Dufferin will be recalled from India.

The withdrawal of Pender from the Western Union is the outcome of a row of several months' duration, caused, it is said, by Cyrus Field, who is blamed by his associates for having done an exceedingly foolish thing. It is reported that Pender's retirement will be followed by his associate, Henry Weaver, General Managing Director of the Anglo-American Cable Company, and one of the Western Union Directors.

SEA SERPENT.—The Santa Barbara *Independent* of October 10th is responsible for the annexed:

W. W. Hollister, Jr., has discovered the veritable sea serpent at last. While wandering down by the San Augustin creek, where it empties into the ocean, on the Santa Anita rancho, the young gentleman discovered a singular looking head half buried in the sand. With the assistance of a vaquero the remains of the creature were exhumed, and found to resemble strikingly the sea serpent of tradition. Its head was from two and one-half to three feet wide and about four feet in length. The body is about thirty feet long, having flukes at the tail end something like a shark. The body is perhaps two and one-half feet in diameter in the width and a foot more in thickness. The creature has thirteen teeth on each side in the upper jaw, each tooth being about the size of a pepper-box. The front teeth appeared to be badly worn or broken, as if the "sarpint" had been engaged in a desperate battle, or, perhaps, was dying of old age. Mr. Hollister will bring his treasure trove down to Santa Barbara as soon as he gets him all dug out of the sand, and our scientists may then have an opportunity to decide to what order of creature he belongs.

### Terribly Shaken

As the system is by fever and ague, and obstinate as that malady is, nevertheless Hostetter's Stomach Bitters will repair the damage that it does to the constitution, and eradicate every trace of it. Used as a means of prevention, it invariably proves effectual. The most malignant forms of malarial disease prevalent in the tropics, the dreaded *calentura* of the Guatemalan coast, the Chagres fever, and other types of miasmatic maladies, yield to and are prevented by it. Not only should it be used on the first symptom of a chill, but all persons residing in localities where malarial infection exists in air and water, should take it as a safeguard. It is an incomparable remedy for disorders of the stomach and bowels, for rheumatism, inactivity of the bladder and kidneys, and for debility and bilious ailments.

## MINING NOTES.

It is said that $100,000 has been refused for the Stonewall mine, in Julian district, San Diego county.

The old mining camp of Sprucemont, White Pine county, Nev., is coming to the front again. At least such is the report.

A vein of rich ore two feet wide is said to have been cut at a depth of thirty-five feet from the surface in the Nevada mine at Tuscarora.

David James, of Big Creek, has a promising quartz vein on the Tuolumne river, near the mouth of Humbug creek. The rock shows free gold.

The first engine ever used on a mine at Calico has just been put up. Over $2,000,-000 in bullion has been produced there, and no hoisting apparatus other than a common windlass has been used.

The old Stewart mine, near the Mokelumne river, Calaveras county, has been purchased by a Mr. Flagg, who, we understand, will commence work on it on an extensive scale as soon as possible.

J. F. Buyck of Railroad Flat, Calaveras county, has bonded to Angus Gibson, of West Point for the sum of $5,000, the Sun Rise quartz mine, an extension of the Fine Gold quartz mine, which was recently sold for $30,000.

Pete Donahoo came down from Long Gold District, says the Fresno *Republican*, and brought with him some fine specimens from the New Discovery mine. The specimens were picked out of the dump and are rich with wire gold.

Professional men, business men and idlers of Hawthorne, Nev., have all turned prospectors. Vehicles of every description are in demand, and it is pretty certain that Hawthorne will get her share of the gold in the new diggings.

Messrs. Hubbard & Co. are reported to be doing well in their river claim, at Groveland, Tuolumne county, and if they are not troubled with freshets this month they will have a handsome lot of gold to show for their energy and perseverance.

The black sand mines on the coast of southern Oregon are attracting much attention at present. Some more "new processes" have been discovered for separating the gold from the sand. Everybody knows that the sand has "millions in it" if it can only be got out.

The Hyville mine, near Newtown, El Dorado county, has its tunnel in 400 feet and is showing a considerable body of gravel. The gravel has not been thoroughly prospected, but it is believed that it will show another good paying gravel mine for El Dorado county.

A new mining district has been formed on the north side of the San Joaquin river, Fresno county. It is called Jackass Gulch Mining District, and James Daly has been elected Recorder. There are a number of promising-looking quartz ledges in the district, and prospecting is going on at a lively rate.

Rumor says that the Centennial Gravel Gold Mining Company has struck good pay gravel in the bottom of its shaft, between Nevada City and Washington, and has every reason to believe that the company is really sinking directly down into the old blue gravel lead or channel it has sought so long.

The Bishop Creek *Register* says: Frank Fitzgerald got the returns a few days ago from some four or five tons of ore from his mine near Darwin, about one-half of which yielded 650 ounces per ton silver and the remainder 275 ounces per ton, which is a pretty good kind of ore for most anybody to dig after.

A correspondent of the Coos Bay (Or.) *News* writes from Bandon City, on the Coquille, as follows: Some time ago we let out the black sand beach mines to a couple of Chinamen for $25. They took out $1,500. According to the new process they would take out $45,000. From every quarter we learn that the new process is a decided success, and we see no reason whatsoever to doubt it.

# CANCER OF THE TONGUE.

**A Case Resembling that of Gen. Grant.**

Some ten years ago I had a scrofulous sore on my right hand which gave me great trouble, and under the old-time treatment healed up, but it had only been driven into the system by the use of potash and mercury, and in March, 1882, it broke out in my throat, and concentrated in what some of the doctors called cancer, eating through my cheek, destroying the roof of my mouth and upper lip, then attacked my tongue, palate and lower lip, destroying the palate and un ter lip entirely and half my tongue, eating out the top of my left cheek bone and up to the left eye. I could not eat solid food, but subsisted on liquids, and my tongue was so far gone I could not talk. Such was my wretched, helpless condition the first of last October (1884), when my friends commenced giving me Swift's Specific. In less than a month the eating places stopped and healing commenced, and the fearful aperture in my cheek has been closed and firmly knitted together. A process of a new under lip is progressing finely, and the tongue, which was almost destroyed, is being recovered, and it seems that nature is supplying a new tongue. I can talk so that my friends can understand me, and can also eat solid food again. If any doubt these facts, I would refer them to Hon. John H. Traylor, State Senator of this district, and to Dr. T. S. Bradfield, of LaGrange, Ga.

# EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

SUMMONS.—STATE OF CALIFORNIA, COUNTY of Sacramento, ss. In the Superior Court in and for said county. The People of the State of California to ADELINE ALDERMAN, greeting: You are hereby notified that an action was commenced in the Superior Court of the county of Sacramento, State aforesaid, by filing a complaint in the Clerk's office of said Court, on the 22d day of SEPTEMBER, 1885, in which action S. M. HOOVER and M. L. HOOVER are plaintiffs and you are defendant. That the general nature of the action as appears from said complaint, is as follows: To recover from you the sum of $1,400 due plaintiffs from you, for the reasonable value of the use and occupation of certain lands in Yolo county, California, known as the James McDonald Farm, for one year from March 10, 1884, to March 10, 1885, under a lease from plaintiffs to you, together with interest due thereon from March 10, 1885, all of which more fully appears in the said complaint, to which you are referred. And you are hereby directed to appear and answer said complaint within ten days from the service of this writ, exclusive of the day of service, if served on you in said county of Sacramento; and within thirty days, exclusive of the day of service, if served elsewhere. And you are further notified that unless you so appear and answer within the time above specified, the plaintiff will take judgment against you for said sum of $1,400 and interest thereon from March 10, 1885, and costs of suit.

In testimony whereof, I, Wm. B. Hamilton, Clerk of the Court aforesaid, do hereunto set my hand and affix the seal of said Court, this 22d day of September A. D. 1885.

[SEAL.] WM. B. HAMILTON, Clerk.
